

Uncovering the Past

Cub Scout Nova Award Workbook

This workbook can help you but you still need to read the Cub Scout Nova Awards Guidebook.

This Workbook can help you organize your thoughts as you prepare to meet with your counselor.

You still must satisfy your counselor that you can demonstrate each skill and have learned the information.

You should use the work space provided for each requirement to keep track of which requirements have been completed, and to make notes for discussing the item with your counselor, not for providing full and complete answers.

If a requirement says that you must take an action using words such as "discuss", "show", "tell", "explain", "demonstrate", "identify", etc, that is what you must do.

Counselors may not require the use of this or any similar workbooks.

No one may add or subtract from the official requirements found in the Cub Scout Nova Awards Guidebook (Pub. 34032 – SKU 614935).

The requirements were issued in 2018 • This workbook was updated in May 2018.

Scout's Name: _____ Unit: _____

Counselor's Name: _____ Counselor's Phone No.: _____

Send comments or suggestions for changes to the **requirements** for the **Nova Award** to: Program.Content@Scouting.Org

This module is designed to help you explore the wonders of archaeology

1. Choose either A, B, or C and complete ALL the requirements.

A. Watch an episode or episodes (about one hour total) of a show about anything related to archaeology

| What was watched? | Date | Start Time | Duration |
|-------------------|------|------------|----------|
| | | | |
| | | | |
| | | | |

Some examples include—but are not limited to—shows found on PBS ("NOVA"), Discovery Channel, Science Channel, National Geographic Channel, TED Talks (online videos), and the History Channel. You may choose to watch a live performance or movie at a planetarium or science museum instead of watching a media production. You may watch online productions with your counselor's approval and under your parent's supervision.

Then do the following:

1. Make a list of at least two questions or ideas from what you watched.

However it may NOT be used or reproduced for electronic redistribution or for commercial or other non-Scouting purposes without the express permission of the U. S. Scouting Service Project, Inc. (USSSP).

Option B:

- Use plaster of paris to create a "rock" mold at least half an inch thick.

Once it is set, create a dark surface like a patina on the rock, possibly by using tempera paint.

Use a carving tool, such as a screw or push pin, to create one or more petroglyphs on your rock.

Discuss with your counselor what kind of science, technology, engineering, and math was used in the adventure or option.

Lined writing area for notes related to Option B.

Search online for "plaster of paris petroglyphs" for instructions..

3. Explore. Do each of the following:

- A. Look up the definition of the word archaeology and discover what an archaeologist does on a dig site, and what other activities are involved in their work.

Archaeology is the study of the human past by recovering and analyzing materials that people left behind.

Discuss it with your counselor.

Lined writing area for notes related to section 3.A.

- B. Discover the differences between physical remains, artifacts, and ecofacts.

An **artifact** is any object made by a human being. Usually, it refers to an object that has cultural or historical interest.

An **ecofact**, or **biofact** is any organic material that has been recovered and has cultural or historical significance. This might be bones, animal horns, plants, and so on. If the item has been manipulated or modified by humans, it becomes an artifact.

Physical remains are things left behind that were part of an animal—for example, body parts or fossils of body parts..

Discuss with your counselor examples of each that archaeologists can find for a prehistoric people group.

| |
| |
| |
| |
| |
| |
| |
| |

- C. Look around your house. Make a list of 10 artifacts from your home that serve as clues to the way you live.

| | |
|-----|--|
| 1. | |
| 2. | |
| 3. | |
| 4. | |
| 5. | |
| 6. | |
| 7. | |
| 8. | |
| 9. | |
| 10. | |

Artifacts could include anything found lying around the Scout's house. A dog crate could indicate the family has kept domesticated animals. A hammer could indicate they know how to use tools. Ask the Scouts to pretend they have never seen a particular item before, and what might they think it is.

Discuss what you discovered with your counselor.

| |
| |
| |
| |
| |
| |
| |
| |

- 4. Be an archaeologist! Choose A or B:
 - A. Much can be discovered about a group of people based on the items they throw away.
 - With a parent or guardian's permission and guidance, look through the items in a medium-sized trash can that contains at least a few days' worth of trash.
 - Draw conclusions about the people in that location and how they might live, based on what they throw away.

| |
|--|
| |
| |
| |
| |
| |
| |
| |
| |
| |
| |

- Determine which items are artifacts and which are ecofacts.

| Item | Artifact | Ecofact |
|------|--------------------------|--------------------------|
| | <input type="checkbox"/> | <input type="checkbox"/> |

- Discuss with your counselor how the relative age of the artifacts be estimated based on their location in the trash can.

| |
|--|
| |
| |
| |
| |
| |
| |
| |
| |

You may want to have the Scout wear disposable gloves, especially if the trash can contains food remains.

The Scout could lay out a plastic tarp or sheet on the floor, then spread the trash out in order from what was at the top of the can to what was at the bottom.

Can the Scout tell when one day ended and the next began?

Is it possible to estimate how many days' worth of trash there is?

You could ask the Scout to take pictures and bring them to discuss with you.

- B. Create your own layers of artifacts and ecofacts.
 - Gather some small items that would show future archaeologists how you and your family lived.
 - Use a plastic bottle or glass jar as the vessel and Play-Doh sand, dirt, etc.. to form layers.
 - Place the gathered items in different layers.
 - Think about which layers would hold the older items compared to newer ones.
 - Show it to your counselor, and discuss with your counselor why you chose these items and what they would show archaeologists about how you lived.

| |
|--|
| |
| |
| |
| |
| |
| |
| |

- Excavate your items when you're done.

The lower the level, the older the item would be

- 5. Visit a place that has items that have been excavated, such as a museum, dig site, historical society, etc.

| |
|--|
| |
|--|

- Talk to someone who works there about the displays.
- If you can't visit in person, use resources in your school or local library or on the internet (with your parent's or guardian's permission and guidance) to take a virtual visit.
- Discuss with your counselor what you saw, how the archaeologists helped uncover those items, and what questions you had.

| |
|--|
| |
| |
| |
| |
| |
| |
| |

- 6. Discuss with your counselor what you have learned about archaeology while working on this award.

When working on Nova and Supernova awards, Scouts and Scouters should be aware of some vital information in the current edition of the *Guide to Advancement* (BSA publication 33088). Important excerpts from that publication can be downloaded from <http://usscouts.org/advance/docs/GTA-Excerpts-nova.pdf>. You can download a complete copy of the *Guide to Advancement* from <http://www.scouting.org/filestore/pdf/33088.pdf>.
